

#### **SL20C LIFT & TILT - SPECIFICATIONS**

3/4" Insulated Glass Air Space Required

Aluminum Slats in 6010-T8 Alloy

Slat Colors: White, Off White, Almond, Tan, Silver, Gold

Aluminum Box Spacer System

Max Thickness of Glass Lites: 1/4"

Min / Max Width: 12" / 80"

Min / Max Length: 10" / 106"

Operator Type: Cord Loop

#### COMMERCIAL SERIES DATA SHEET

### **SL20C Between the Glass Blinds - Lift & Tilt**

The SL20C incorporates a rugged rotary rare earth magnet assembly. The patented assembly is a magnetically coupled, gear driven mechanism to lift or tilt the blinds. The blind is operated using a cord loop and loop tensioner system. The cord loop rotates the external magnet, which drives an internal magnet with which it is coupled. Moving the cord loop down on the right or left outer magnet assembly will respectively lower or raise the blind. Motorization options are also available.
